MATIDA PELEMBA CV

STUDENT | COMPUTER SCIENCE | SOFTWARE ENGINEER

SUMMARY

I am a highly motivated female computer science student with a strong passion for technology and problem-solving. Throughout my coursework I have developed proficiency in several programming languages, including C, C#, Java and Python. I have also gained a strong foundation in algorithms, data structures, and computer organization.In addition to my technical skills, I am an effective communicator and a collaborative team player, with experience working on group projects and presenting technical information to non-technical stakeholders. I am excited to continue developing my skills and knowledge in computer science and am eager to contribute my talents to a dynamic and innovative organization.

EDUCATION

Bachelor Of Technology Honors Degree in Computer Science, Harare Institute Of Technology
